North West Legislature Speaker Hosts Stakeholders Dialogue for CPAs to Engage with Departments on their Challenges and Successes

On Friday, 1 March 2019, the Speaker of the North West Provincial Legislature, Hon, Sussana Dantjie will be hosting the Stakeholders' Dialogue under the theme *"Following up on our commitments: Making Your Future Work Better,"* at Matlwang Community Hall in Potchefstroom at 09h00.

A panel of expertise and opinion makers which include various Communal Property Associations in the JB Marks Local Municipality have been invited to engage on reviving the CPAs' projects through existing resources and identify the unique tourism intervention mechanisms necessary for the poverty alleviation within the CPAs.

The dialogue will also allow about 250 stakeholders to engage on requirements for a CPA to be fully compliant; the mechanisms for ensuring sustainable projects for CPAs are available through the Department of Land Reform; the agricultural support for CPA's; immovable and movable property ownership of CPA's, and CPA's and Traditional Leadership.

The Legislature is facilitating a panel of discussions between stakeholders as part of enhancing oversight and cultivating a culture of robust debates within the province.

The outreach programme was launched by Hon. Dantjie to afford the Executive an opportunity to account to the people of the North West on the work and commitment by government; and to provide an opportunity for people of North West to engage government and table their expectations. As part of preserving the legacy of Mama Sisulu, who was a professional nurse, Hon Dantjie saw it fit

that this Stakeholders' Dialogue should tackle health issues affecting the province.

Representatives from the Department of Rural and Land Reform, Department of Tourism, Department of Culture, Arts and Traditional Affairs, and House of Traditional Leaders.

Members of the media are invited to attend. For more information contact Namhla Luhabe on 079 527 0628 or Mr. Dodo Baloyi on 082 895 5780.
